**(September 22, 2021)  
FOR IMMEDIATE RELEASE**

In August, voters, very positively, supported the parks tax to restore and improve our parks. Shortly after the first of next year, the projects will begin, and our community will start to see the results. However, now is the time to start planning for ways we can work together to protect our parks and park assets to ensure they stay safe and well-maintained for many years to come.

A series of public meetings will be held in October to gather community input on how we can all work together to safeguard our parks. The public is invited to attend to hear updates on the parks tax and implementation of the projects, and to share ideas they may have on programs to get the public engaged in our parks system. There will be opportunities for those interested to sign up for different programs being considered and established.

The meetings will begin at 6pm, and will be held at the following dates and locations:

Tuesday, October 5	Fairview Clubhouse, 3302 Pacific
Thursday, October 7	Remington Nature Center, 1502 MacArthur Drive
Wednesday, October 13	Community Christian Church, 2009 Mason Road

Our parks belong to all of us, and everyone has the right to use them and feel safe while in the parks. Working together, we can establish programs that will keep the parks safe and maintained for our generation and those to come. Afterall, our Parks are for Life.
