**(October 13, 2023)
FOR IMMEDIATE RELEASE**

While work continues on the Lovers Lane bridge replacement project, the contractor will begin the replacement of the pedestrian bridge on Northwest Parkway just to the south of the Lovers Lane bridge.

To expedite the reopening of this area of roadway, the contractor will work on the projects simultaneously and is scheduled to complete both projects around the same time frame.

The work is scheduled to begin on Monday, October 16. Detour signage will be in place to direct traffic. Motorists are encouraged to travel on Ashland Avenue to Northeast Parkway, follow the Parkway taking a short right to Marion Street and over to 22nd Street.

The Lovers Lane bridge and roadway project is currently on schedule and anticipated for completion by yearend. Construction is unpredictable due to weather, unforeseen developments and other challenges that may result in a change in the project timeline. The city will issue updates accordingly throughout the project.

Please exercise caution while in work zones to ensure your safety and that of crews working. We appreciate the inconvenience of motorists and residents in the area and thank you for your patience while we repair and improve our roadways.
