FOR IMMEDIATE RELEASE**

The City of St. Joseph invites the community to the Krug Park groundbreaking ceremony on Thursday, October 10, at 4pm. This ceremony will mark the beginning of an exciting chapter for this beloved park.

Krug Park, renowned for its picturesque landscapes and timeless charm, has long been a place where generations of families have created lasting memories. From playground laughter to serene walks around the lagoon, the park holds a special place in the hearts of many. This groundbreaking symbolizes the city's commitment to honoring the park's rich history while ushering in a future filled with renewed vitality and enhanced community spaces.

"Whether you've attended a high school graduation at the amphitheater, know someone who got married at the rose garden, or sat on the gliders by the castle as a child, this park has touched countless citizens in St. Joseph and surrounding areas," said Mayor John Josendale. "We are honored to revitalize one of our crown jewels for future generations to come, and I cannot wait to see the slides appear, again, in the park."

The ceremony will feature remarks from local officials, community leaders, and park advocates. Attendees will also have the opportunity to learn about the upcoming enhancements, which include improvements to the amphitheater, children's circus, castle, picnic area, and buffalo bowl.

The public is invited to join the celebration and witness the launch of this transformative project. Funding for the Krug Park renovation is provided through the half-cent parks sales tax approved by voters in 2021.
