HomeSafe®

By  DocuPet

HomeSafe® is the complimentary 24/7 lost pet service which relies on a dedicated dispatch team and comprehensive pet profiles to help get lost pets home quickly. Each official license comes equipped with this valuable service. HomeSafe® has helped reunite thousands of pets with their families, here are some of their stories

"DocuPet called me to let me know that someone had found our dog Zack in the park behind our house and had taken him home with her - I had no idea that Zack was even missing! The back gate must have blown open in the strong winds and he decided to go for his own

walk. I was so glad that DocuPet could give me the phone number of the person who found him, so I found out right away that he was okay! This meant a quick and happy reunion, rather than a stressful ordeal of trying to find Zack. Thank you, DocuPet!" - Sarah

"I am so thankful that we decided to register both of our dogs with DocuPet. I was working around the house last weekend when I received a call that said my dog Henrik had been found, I was confused because I thought he was sleeping on my lanai and didn't

realize was gone. Luckily a neighbor about a quarter of a mile away had found him and called the DocuPet number on his tag. I have had Henrik for almost nine years and he never once before has wandered away. Thanks to HomeSafe®, he was found before we even knew he was gone." - David
